

Play music wireless on your iMac

iPhone, iPad or iPod

WiFi  
.....  
Airplay

**68- Play iPhone - iPod - iPad music on your iMac through a Line-In stereo cable.** Use **LineIn** software to switch the iMac speakers to Line-In input at the back. Also set System Preferences/Sound to Line-In. You also can connect the Line-In stereo cable from your iMac to an Airport Express and your music will sound wireless through Airplay. See diagram.
